hydrobiologia volume 341 (1996), contents

volume 341, no. 1, december 13, 1996

Measuring the responses of macroinvertebrate communities to water pollution: a comparison of multivariate approaches, biotic and diversity indices
by Y. Cao, A.W. Bark & W.P. Williams 1–19

Factors influencing biomass and nutrient content of the submersed macrophyte *Egeria densa* Planch. in a pampasic stream
by C.S. Feijoó, F.R. Momo, C.A. Bonetto & N.M. Tur 21–26

Autotrophic carbon sources for heterotrophic bacterioplankton in a floodplain lake of central Amazon
by A.V. Waichman 27–36

Macroinfaunal biomass and energy flow in a shallow reef flat of the northwestern Philippines
by H.M.E. Nacorda & H.T. Yap 37–49

Interactions between riparian leaves and algal/microbial activity in streams
by N. Friberg & M.J. Winterbourn 51–56

Comparisons among colonization of artificial substratum types and natural substratum by benthic macroinvertebrates
by R.J. Casey & S.A. Kendall 57–64

Growth and age structure of the swan mussel *Anodonta cygnea* (L.) at different depths in lake Mattsee (Salzburg, Austria)
by D. Müller & R.A. Patzner 65–70

Concentration and distribution of copper and cadmium in water, sediments, detritus, plants and animals in a hardwater lowland river
by S. Smith, M.-H. Chen, R.G. Bailey & W.P. Williams 71–80

Distribution and ecology of freshwater sponges in Connecticut
by E.M. De Santo & P.E. Fell 81–89

volume 341, no. 2, december 20, 1996

Some limnological features of three lakes from Mexican neotropics
by R.E. Torres-Orozco B., C. Jiménez-Sierra & A. Pérez-Rojas 91–99

Benthic faunas of streams of low pH but contrasting water chemistry in New Zealand
by M.J. Winterbourn & W.F. McDiffett 101–111

Consequences of protist-stimulated bacterial production for estimating protist growth efficiencies
by R.A. Snyder & M.P. Hoch 113–123

Estimating lacustrine zooplankton species richness and complementarity
by H.J. Dumont & H. Segers 125–132

Relationships between mesohabitats, ichthyological communities and IBI metrics adapted to a European river basin (The Meuse, Belgium)
by J. Didier & P. Kestemont 133–144

Effects of hydropower-induced flow perturbations on mayfly (Ephemeroptera) richness and abundance in north Swedish river rapids
by B. Malmqvist & G. Englund 145–158

Evaluating decline parameters of rotifer *Brachionus plicatilis* populations as an interstitial water toxicity bioassay
by T.A. DelValls, L.M. Lubián, M. González del Valle & J.M. Forja 159–167
Marked early 20th century pollution and the subsequent recovery of Töölö Bay, central Helsinki, as indicated by subfossil diatom assemblage changes
by A. Korhola & T. Blom 169–179

Books received 181–182

Book reviews 183–186

volume 341, no. 3, december 27, 1996

Morphology and postembryonic development of males and females of *Bosmina longispina* Leydig (Crustacea, Anomopoda) from a North Iceland population
by A.A. Kotov 187–196
Aquatic nematodes from Ethiopia VII. The family Rhabdolaimidae Chitwood, 1951 *sensu* Lorenzen, 1981 (Chromadorida: Nematoda) with the description of *Udonchus merhatibebi* n. sp.
by Eyualem Abebe & A. Coomans 197–214
Life history of Gambusia holbrooki (Pisces, Poeciliidae) in the Ebro delta (NE Iberian peninsula)
by M.J. Vargas & A. de Sostoa 215–224
Phytoplankton biomass and production in shelf waters off NW Spain: spatial and seasonal variability in relation to upwelling
by A. Bode, B. Casas, E. Fernández, E. Marañón, P. Serret & M. Varela 225–234
Some allometric and non-allometric relationships between chlorophyll-*a* and abundance variables of phytoplankton
by R.K. Kalchev, M.B. Beshkova, C.S. Boumbarova, R.L. Tsvetkova & D. Sais 235–245

Opinions section .....
Opinion on the book "Quartäre Vegetationsgeschichte Europas" by G. Lang
by H. Löffler 247–250

Erratum .....
The molecular systematics of some agar- and carrageenan-containing marine red algae based on *rbc*L sequence analysis
by S. Fredericq, M.H. Hommersand & D.W. Freshwater 251

Books received 253–256

Book reviews 257–266

Information for Authors 267–277

Author index 279
